You were the best Adult Friend ever. We went through a lot over the last 23 years. You were so proud of that cabin and sailing with Stan. So glad we got to go out with you one day! What a dog lover you were. And for ducks and the pond. You're a trooper. I'll miss you so much.

“ *Carin was my best friend in high school and beyond. Our families spent vacations together played risk together. They were wonderful days with their boys and our daughters. Carin will be missed by everyone. I will always have her in my heart especially having to dig all of her clothes out from under her bed when we were in high school . Stan Brian and Marc my love to you. Mary Hoegler*

*Dear Stan and boys,
Riding thru Chatum tonight and thought of all of you. Shocked to find Carin passed a year ago. Although it has been years since we were neighbors in Avon Lake we have often remembered things like Carin forever rebuilding your backyard space, sending Stan over to help me re build and reupholster a chair. The boys protected our girls and were always fond of your family.0)*

“ *Up until the end of third grade, Carin and Stan were a huge part of my childhood. Soooo many camping adventures where it seemed so many insane things would happen, sailboats running into electrical wires, torrential rain moments, etc etc.
At our house in Avon and their house in Avon Lake there were many many nights of the board game Risk.
And I will never ever forget the nights at the bowling alley.
It always seemed that my Dad, Herb Hoegler, and Carin were the kids taking care of the kids, which of course us kids absolutely loved, and my poor Mom and Stan always had to be the voices of reason.
Love to you Carin....thank you for the AMAZING memories ❤️*

Thanks bill. Is donna gone also? She was really happy when I ditched the sailboat and bought the 28 foot cruiser. I think in the 5 years we had it she caught about a 1000 fish. We al.ost lived on the boat.

“ As you know we have been friends through thick and thin. Friends for I think 26 years. She was the world to me. And a confidant. I will never ever be able to replace that . she was funny corky and spoke the truth. I can't believe I just talked with her last week. I will miss her dearly! what a blessing to have known her. Take care Stan.
