“ Once again, I am so very sorry for your loss.
Chris and Brian were good friends for a long time, during the 70's and 80's. Seems like they were always together. I remember Chris being at our house many, many times.
I thank Chris for being a good dad to Christopher and Michelle. He took over, stepped right up and never hesitated. He provided for them, made sure they had whatever they needed. Thank you Chris, from the bottom of my heart for stepping up and being a good dad.
RIP Chris and thank you, thank you, thank you.....

“ My wife and I have known Chris for about forty years. We first met him when he decided to come out and try wheelchair basketball. This was right after he graduated high school. He fit right in with our players and I believe it was the first time he had been around other people that relied on wheelchairs. We played for quite a few years. After basketball we got into wheelchair bowling. This sport seemed to fit Chris better because it was more of an individual sport. We attended many wheelchair bowling tournaments, many were in different states. I remember one in particular which was being held in Las Vegas. Chris and a friend drove all the way there to compete in the tournament. Chris bowled way over his average of approx. 150 and ended up winning the tournament, which came with a nice trophy and a \$1000.00 . These are some of the memories I have of Chris he will always be remembered by my wife and I. Until we meet again my friend. Chuck and Karen Schafer.

“ Where to start, I met Chris in the 4th grade. That was my 1st year at Patterson. We always had a lot of laughs and got in trouble for disrupting the class. He was always so fun and kind. In high school he was a hot rod in his wheel chair. Maybe that's why he liked Nascar so much. I enjoyed seeing him at Big Lot when I started working in Clarkston. He never complained of his disability and was so proud of his family. I will forever be grateful to have been able to call him my friend. Rest in peace Chis, until we meet again.

“ We lived in Indiana, you all lived in Michigan and seldom saw each other, but when we did I was so impress with how dedicated and protective you were of Chris, Teresa. I remember when there was a time when Chris needed something, and someone, came up with a project making necklaces to raise money to meet the need. I think it might have been his Aunt Mildred - at least she was the one that got my mother and me involved in the project. Chris was in a bowling tournament here in Indiana, and I went hoping to get to see him bowl, but ended up having to leave before it was his turn. I was a school driver and had to be back to pick up thee children on time. The good thing about the trip that I got to visit with Chris. Thank God that all of you can one day be together again.
