“ Terry we are so sorry to hear about the passing of Darlene. I don't know if you knew but my dad lost his battle with cancer in November. Mac and I loved to talk to your wife when he was getting treatment. I hate cancer and Believe me I know how you feel right now. So please put your trust and hope in God hands and he will help you get thru this journey we all have to go thru. My dad and your wife is not suffering anymore and they will never be sick again. They will be waiting for us in eternity. God Bless you and your family
Sincerely

“ Terry and family,
I am deeply saddened to hear that Darlene passed away. She truly was a ray of sunshine, and even though she didn't feel well, she always made my day brighter. I remember her at St Joe making sure her patients received the best of care and thinking what an awesome caregiver she was. I am sure she was a great wife, mother, and grandma. My thoughts are with you.
