“ *Lori and Terry,*

Please accept my sincerest sympathies on your mothers passing. She was a very special person. "Aunt Grace" had a profoundly positive effect on my life and I have many very fond memories of her. Rather than chastise me for using vulgar language, she would remind me that there were much better vocabulary options for intelligent people to express themselves with. She was right of course. She was someone my we could all count on to help us with just about anything and expected nothing in return. Her dedication to her entire family was something I admired. I will miss her greatly!
