“ *What a wonderful man. I was just a kid when the family moved in across the street from us and one of my fondest and funniest memories with Howard was the time he took this little girl ice fishing with him down at the mill pond. He drilled a few holes and gave me a pole because this was the first time I had ever ice fished. I began catching fish after fish...I was thrilled! Well, Howard not so much. So he suggested maybe we trade holes and I obliged while giggling at the same time. Well seemed the fish had followed me and I began pulling them out of this new hole left and right. That was the first and last time Howard ever took me fishing. I feel so blessed to have known such a kind hearted man and I am proud to have called him my friend.*

My most sincere condolences not only go out to his family but also to our "Mayberry" neighborhood that he was such a large part of. You will truly be missed....

“ We fondly remember all the times that Howard delivered things to our house when our son, Rick Findley was rebuilding the engine in a car at our house. Howard's comment at the time when the tires were delivered was " I'll be glad when that car is finished". The tires were racing tires and very heavy.
Thanks, Howard, for your many years of service with UPS.
