“ Sending my love and condolences to all my cousins and family. Losing a father can be so painful and heartbreaking. I will forever remember Uncle Kenny for his kind and gentle manner. He always called me Linnie when I was little, and still did when I took him banana nut bread as an adult. I have such good memories of us all when we were little. Time has passed so quickly. He will be missed.

“ Condolences to Ken's family.
I was 9 years old in 1979 when Ken was fundamental in teaching me to fly R/C.
I was one of the Founding Members of the Holly Cloud Hoppers with Ken back in 1991.
Many fond memories flying with Ken.
May you always have sunny skies and light winds, my friend.

“ Our deepest condolences to Ken's family from all of us at the Holly Cloud Hoppers flying club. Fairwell to our friend, although you have taken your final flight on Terra Ferma I am sure somewhere out there is pristine flying field waiting for us all. I can see you standing on the flight line, transmitter in hand, an aeromaster sitting idling on the runway, fuel tank full and battery charged, just waiting for your skilled commands. Happy flying, dear friend, you will be sorely missed but fondly remembered. Respectfully, Doug.

“ Today was the first Sunday that Maria and I have not visited, or at least planned to visit, Dad after church in many years. Sure will seem different now.
