

## Louise T. Romanski

April 4, 1930 - August 31, 2021

On the early morning of August 31st Louise Romanski once upon a time the wife of Lon Romanski who preceded her in death - passed on. Louise was the sister of and a regular pen-pal to Emily among others. Stanley and Sigmund her brothers are gone but not forgotten and all she would speak highly of often.

Louise was the daughter of two hardworking parents Stephen and Kathryn Pasierb who brought this amazing women into our world. Louise was a long time resident of Fraser MI. and passed away quietly after having a cool glass of water and closing her eyes to return to sleep.

Safe to say no less than many will miss her dearly. Her passing precedes her two children Diane and David and beautiful spirited grand and great grand children - all of which she cherished without fail. Her grand children being: Anne Marie Walters, Stephen Wozniak, Andrew Lon, Matthew David, Aaron Raymond, Melissa Louise and Elouise Rose.

She is the Great Grandmother to Samuel Keith - in Heaven, Emma Belle, Ruby Jane, Lucy Mae, Nora Anne, and John Logan.

Auntie Louise had many beautiful nieces and nephews who she tended to brag about and was so so proud of - that list being long as well.

Truly to list the names of all the friends Louise has had throughout her life would be pages upon pages and at the same time not one enemy did Louise have save death and that may have actually backfired - instead placing her into a far better world than the present. Louise also loved music and loved to dance... May she have plenty of opportunity to enjoy these things where she is now.

Louise was a hard working woman who by tenacity, diligence and unwavering commitment accomplished all the things she did - helping many people along the way and did so by the Grace of God which was her quiet motto.

Louise's faith in the Creator was unwavering and she would always say a prayer for this or that situation or person - quietly within. She seemed to have the ear of that which would and could answer her communications and requests.

Louise truly not only leaves a legacy she has left something within all of those who were fortunate to cross her path - she has left with those something special and unique deposited directly into their heart... her life.

May we often remember Louise and the gift of herself to us all throughout the days, weeks and coming years.
