“ I have known Theresa for 5 years and have been ever so lucky to be her nurse. My daughter is 9 and Theresa has been her favorite person at my work since she was 5. She would come with me to work and run to her room to see her tarantula and then later to see her turtle. I have been gifted several crochet items for my girl and they will always be cherished items for me and her . Xoxo  
With love
