“ So sorry to hear about Tom's passing. I would like to share my condolences with both Keith and Vonnie. Your dad was the most talented artist I have ever met, and it was a pleasure to work with him while I did. From creating giant foam fish in your garage to helping him build an airplane in your driveway! He had so much talent, and he shared some of that with me. I learned so much from him and because of him, I have been able to use those talents to continue mounting, carving and painting fish, still today. So many of my clients have asked me where I learned taxidermy, and how I learned to paint and create...I always give your dad that credit. Thank You Tom, you will not be forgotten.
